

# Scan and Tick Guide

This guide explains how to scan a climb and start ticking the ones you've sent. To get started, go to <https://main.betabouldersapp.com> on the desktop or open the app on your phone.

*Est. time: <1 min*

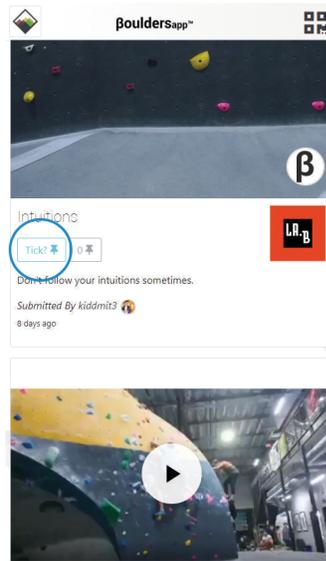

1

Click the scan icon on the top right from any page. By default, the option to scan is selected. To tick a climb, select the thumbtack icon.

NOTE: You must be logged in to tick and save a route.

Alternatively, you can scan any tag with any QR code reader including the one built into your phone's camera app (iOS and selected Androids)

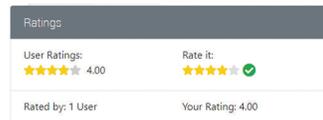

2

Once scanned or ticked, you can check out the route's information including beta video and annotations. You can also leave comments and review.

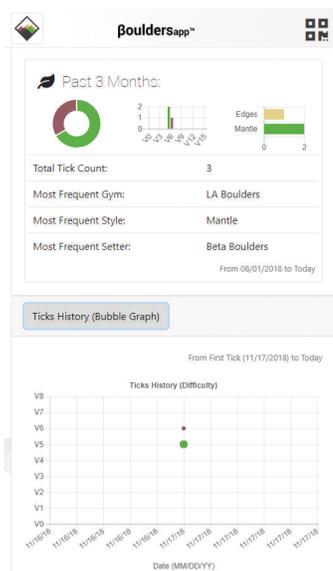

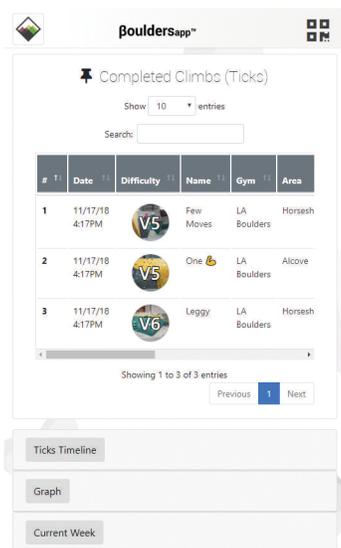

Alternatively, you can also tick a climb from the climb's page by clicking the blue thumbtack.

You can view beta video if available.

Leave a review 1-5 stars to help your gym improve and reward great setters.

3

You can view your ticks and view your progress with graphs and charts by navigating to "Statistics" from the menu.

Here, you can search and filter climbs you saved and open up charts to see information on the climbs you've done.
